

INFORMATION TO TRAVELLERS WHO CHOOSE CUBA AS A DESTINATION

On last February 16th , the Government of Cuba agreed to establish that all travellers, foreigners and abroad Cuban residents should have a travel insurance policy with medical expenses cover, when visiting the country starting on May 1st, 2010.

To fulfill this demand, the traveller should have a travel insurance that includes medical expenses or a medical expenses policy, with cover inside of Cuba.

The policy should be acquired in the country of residence. Those travellers that exceptionally don't have the insurance at their arrival, they will be able to acquire a policy with insurance and assistance cover subscribed by Cuban insurance companies at the airport, port or marines. (Policy is annexed)

The travel insurances subscribed by Cuban insurance companies and by most of the international insurance companies have the ASISTUR Assistance Services in trip inside of Cuba. It is a 24 hours service during 365 days of the year.

According to statistics, more than 80 per cent of persons who visit Cuba at the moment; have an insurance provided by companies of their country of residence. This insurance covers the medical expenses in Cuba.

In the case of residents in the United States that travel directly to Cuba, they will have to acquire a policy with Cuban insurance cover in the country of residence. This policy is marketed through a network of agencies associated to HAVANATUR-CELIMAR Company, due to the impossibility for North American insurance companies to guarantee covering in the national territory.

The traveller who is checked when arriving to the country, should show the policy, certificate of insurance or travel assistance card, which is valid during the stay in Cuba.

The visitors to Cuba will find not only the natural beauty of the Island, but also the hospitality of Cuban people and an absolute security that includes harmony and health. For any case of medical emergency, the Cuban Health care System guarantees primary assistance through a net of clinics and hospitals all over the country. The primary medical assistance is provided in most of the tourist facilities.

For more information on the service, when planning your trip to Cuba, please visit the website, or you can go to the nearest Embassy or Consulate, or to the offices of Cuban Ministry of Tourism. You can also visit websites of Ministry of Tourism (<http://www.cubatransel.com>) or the insurance and assistance company ASISTUR (<http://www.asistur.com>).
